

WHY CARMANAH?

It's easy to answer. At all of my journeys around the world I found many very impressive places, still being unforgettable inside my mind.

There were the volcanoes of Chile, the Pyramids in Egypt or the Zen-Gardens in Japan. But never I found a place that touched my soul deeper than the worlds largest Sitka-Spruce trees in the Carmanah Valley at the Westcoast of British Columbia in Canada.

There, more than 20 years ago, I decided to start to be an independent photographer and film maker and in honor of this place and the days in Carmanah Valley, today as an artist I carry the name "Carmanah".

CARMANAH, THAT MEANS:

The simplicity resulting from proximity to nature due to the strictness and grace demands the concentration on the essential, and that is what I as a photographer strive for.

THE SIMPLICITY RESULTING FROM
PROXIMITY TO NATURE DUE TO THE
STRICTNESS AND GRACE DEMANDS THE
CONCENTRATION ON THE ESSENTIAL.

WELCOME TO CARMANAH

BE MY GUEST

at my privat finca on Mallorca Island and get a survey about photography and the rest of the world. Sometimes there is some dim lightning of a Cohiban cigar, the scent of fresh baked bread coming from my stone oven, touching your nose and with some nice red wine, we will enjoy the sunset at my pool terrace with view to the Tramuntana Mountains, too.

YOU ARE A GOOD PHOTOGRAPHER

but unfortunately photography becomes absorbed in too many rules about lightning exposure, f-stops and depth of field, so dealing with a camera becomes something wrapped in grey and technical theory, that is no fun anymore.

That's why I developed Lightscape workshops. With a lot of fun and at beautiful locations you will learn the creative and easy handling of the camera and you will get to know a wonderful world of photography. With a few basic techniques you will become a painter with your camera.

You will learn to discover interesting things, you never cared for before. You will take pictures, fascinating landscapes made of light; lightscapes, that's what I call them.
